

kokonut pacific

Our Vision

Empowered and thriving remote coconut communities.

Our Mission

We're a social enterprise that's serious about empowering lives in some of the world's poorest remote coastal communities. We provide sustainable and culturally appropriate technology and resources to help coconut communities produce valuable products and access markets beyond their village.

Our Values

Values are at the heart of our business. We believe it is these values that define who we are and influence how we go about our work.

CARING

We are inspired by Jesus to show compassion and work to serve others.

COMMITTED

We are committed to our work, the task at hand and the communities we serve.

EMPOWERED

We are empowered to bring hope, innovate and make a difference in everything we do.

TRUSTED

We support the ethical and fair trade of healthy, organic and sustainable products.

UNITED

We respect and appreciate each other and work together to achieve great results.
